Compliance Reporting Details

Reporting Year

2024

Reporting Period

01 Jun(01 Oct - 31 Mar)

Remark(if any)

Kindly find the compliance status as per the conditions of Environment Clearance Letter F.No. J-11011/64/2011-IA-II(I) dated 11th August 2017 for expansion of our Aluminum melting from 20,000TPA to 30,000 TPA, Propane Storage from 50 MT to 100 MT and power backup from 4.9 MW to 37.3 MW.

Details of Production and Project Area

Date of Commencement of Project/Activity

14-08-2017

	Project Area as per EC Granted(ha.)	Actual Project Area in Possession(ha.)
Private	0	0
Revenue Land	0	0
Forest	0	0
Others	0	0
Total	0	0

Sr.No.	Name of the Product	Units	As per EC Granted	As per CTO Granted	CTO ID	Valid Up To	Production during last financial year
1	Passenger Car	Others:Numbers/Year	NA	180000	2022-2023/HDF/9241	31-07-2027	134922

Conditions

Specific Conditions

Sr.No.	Condition Heading	Condition Details	Status of Compliance,Remarks / Reason and Supporting Documents	
1	Human Health Environment	The PP shall identify the VOCs and establish system of monitoring for VOCs. The results of monitoring shall be submitted to Regional office, Ministry of Environment, Forest and Climate change as a part of half yearly monitoring report.	PPs Submission	VOCs are generated from the paint shop and MSDS of raw material used are being referred for identification of VOC generated. The parameters are being monitored on a half yearly basis. VOC Monitoring results are attached Complied Attachment: Click to View
2	Statutory compliance	Management, Handling, Transportation and Disposal of Paint sludge and other hazardous waste shall be carried as per the provisions of Hazardous and Other waste (Management & Transboundary) Rules, 2016.	PPs Submission	The Paint sludge and other hazardous wastes are stored, transported, disposed as per Hazardous Waste Authorization No. RPCB/HWM/2021-2022/HDF/HSW/78 issued by RSPCB dated 21/12/2021 and is in compliance with Hazardous Waste management, handing & transboundary movement rules 2016. Complied Attachment:NA
3	Human Health Environment	The occupational health surveillance program for the active workmen shall be carried as per the protocol of ILO. Occupational health check-up shall be carried for at least 1/5th of the active workmen in a year	PPs Submission	HCIL is following the workers occupational health surveillance program as per ILO protocols and Indian requirements. The occupational health surveillance programme is maintained and monitored. The plan and

		covering all workmen in every 5 years.		sample medical report are enclosed Complied Attachment: Click to View
4	AIR QUALITY MONITORING AND PRESERVATION	The project proponent should install 24X7 air monitoring devices to monitor air emission, as provided by CPCB and submit report to Ministry and its Regional Office.	PPs Submission	24X7 air monitoring devices to monitor air emission are installed in applicable stacks and are regularly being monitored and data shared with CPCB and RSPCB in online mode. Complied Attachment:NA
5	Statutory compliance	PP shall strictly follow Oil Industry Safety Directorate (OISD) norms/guidelines for design, installation and operation of the isolated Propane Storage and HSD storage tanks with additional safety measures. The safety audit shall be conducted regularly and report shall be submitted to the Regional Office as part of half yearly report. Requisite Emergency Preparedness Plan (including On-site and Off-site Response Plan) shall be in place at the project site, State Pollution Control Board and Regional Office of the Ministry.	PPs Submission	OISD norms/guidelines is followed for installation and operation of the isolated Propane Storage and HSD Storage tanks with all Safety measures. Yes, the safety audit is conducted regularly. Emergency Preparedness Plan is in place and periodical mockdrills are being done and records are maintained. Emergency preparedness plan, periodic mockdrill and copy of last audit are enclosed Complied Attachment: Click to View
6	WASTE MANAGEMENT	API separator shall be installed by the PP to separate oil from the waste water	PPs Submission	American Petroleum Institute Standards are being followed and API separator is installed and

		before the treatment in ETP.		operative to separate oil from waste water before treatment in ETP and the photo of the same is enclosed Complied Attachment: Click to View
7	WASTE MANAGEMENT	Used oil, oil containing sludge and grease, filter and filter material containing oil should not be incinerated in the plant premises and should be sold to the authorized vendors.	PPs Submission	Used oil, Oil containing sludge and grease, filter and filter material is being sold to RPCB authorized recycles Complied Attachment:NA
8	AIR QUALITY MONITORING AND PRESERVATION	Adequate stack height shall be provided to as per the total capacity of all DG sets (2.4 MW x 10 DG sets, 1.6MW x 3 DG sets, 1.2 MW x 3 DG sets), Gaseous and particulate emissions shall be regularly monitored and records shall be maintained. The monitoring reports shall be submitted to this Ministry's Regional office as part of the half yearly compliance report.	PPs Submission	Adequate stack height of all the existing 6 DG sets are maintained as per the CPCB norms. Regular monitoring of gaseous and Particulate emissions is done. Complied Attachment: Click to View

9	Noise Monitoring & Prevention	Adequate enclosures shall be provided to DG sets for controlling noise pollution so that the noise levels shall be within the limits as prescribed by CPCB.	PPs Submission	<p>DG sets are equipped with the acoustic enclosures. Also, the noise monitoring is done by NABL Accredited laboratory. Results shows that the noise level at all the places are within the permissible limit as prescribed by CPCB and lab reports are enclosed</p> <p>Complied</p> <p>Attachment: Click to View</p>
10	GREENBELT	Green belt shall be developed in 33% area to mitigate the effects of fugitive emissions as per the CPCB guidelines. Plant species from local area shall be selected in consultation with DFO for green belt development.	PPs Submission	<p>Presently 27597 trees and Shrubs are already planted which is more than 33% of the total area of the plant. Trees planted help to mitigate the effect of fugitive emissions as per the CPCB guidelines. The species of plants in Green Belt and acknowledgement letter from DFO is enclosed</p> <p>Complied</p> <p>Attachment: Click to View</p>
11	Corporate Environmental Responsibility	All the recommendations made in the Charter on Corporate Responsibility for Environment Protection (CREP) for the Aluminum sector shall be strictly implemented.	PPs Submission	<p>As per the released minutes of the 28th EAC (Industry- I) held during 5th to 7th February 2018 by MOEFCC (attached as Annexure – 4), Committee has mentioned that the relevant recommendations made in the charter on corporate responsibility for Environmental Protection (CREP) for the Aluminum Sector shall be implemented. And none of the condition is applicable for HCIL- TKR.</p> <p>Complied</p> <p>Attachment: Click to View</p>

12	AIR QUALITY MONITORING AND PRESERVATION	<p>The gaseous emissions (PM10, PM2.5, SO2, NOx) from various process units shall conform to the standards prescribed by the concerned authorities from time to time. The particulate emissions from the plant shall not exceed 50 mg/Nm3. At no time the emissions level should go beyond the prescribed standards. In the event of failure of any pollution control system adopted by the unit should not be restarted until the control measures are rectified to achieve the desired efficiency</p>	PPs Submission	<p>The gaseous emissions (PM10, PM2.5, SO2, NOx) from various process units are conforming to the standards prescribed by the concerned authorities, also particulate emissions from plant not exceeding 50mg/Nm3. Monitoring reports of stacks are attached herewith Complied Attachment: Click to View</p>
13	WATER QUALITY MONITORING AND PRESERVATION	<p>The plant will operate on a zero discharge concept and all treated water shall be recycled and reused. No effluents shall be discharged outside the premises. During the monsoon period water should be discharged only after proper treatment and meeting the norms of the SPCB/CPCB. A separate drainage system shall be provided for storm water/ rain water management.</p>	PPs Submission	<p>We have a well established ZLD plant and 100% treated water is being recycled and reused within process, and STP treated is being used for horticulture purpose. So no effluent is being discharged outside the plant premises. . Rain water from surface run-off is directed towards recharging the ground water aquifer directly through the various types of structure such as, percolation pits, Bore wells Complied Attachment:NA</p>
14	Corporate Environmental Responsibility	<p>A separate budget provision shall be earmarked towards the Enterprise Social Commitment based on Public Hearing</p>	PPs Submission	<p>The site is located in the industrial area. No public hearing as such is applicable to this plant and it was exempted by</p>

		<p>issues, locals need and item wise details along with time bound action plan as indicated by the project proponent shall be implemented. Action taken report in this regard shall be submitted to the Ministry's Regional Office.</p>		<p>MOEF&CC at TOR stage itself. However, ESC expenditure will be done based on issues raised by the public if any and item wise details committed by the project proponent considering location need will be implemented. Apart from this CSR Budget is prepared as per the guidelines of MOEF&CC and will be spend on activities as mentioned in Annexure Complied Attachment: Click to View</p>
15	<p>WATER QUALITY MONITORING AND PRESERVATION</p>	<p>The existing water requirement is 1677 KLD and the additional fresh water requirement is 56 KLD for the proposed expansion project. Therefore, the total withdrawal of groundwater should not be exceed 1733 KLD. The PP should obtain required permission from Central Ground Water Board for withdrawal of aforesaid required quantity of ground water.</p>	<p>PPs Submission</p>	<p>The CGWA has already granted permission for 1774 KLD water and a copy of approval is enclosed as Annexure-13 Also as per the released minutes of the 28th EAC (Industry- I) held during 5th to 7th February 2018 by MOEFCC (attached as Annexure – 4), Committee has revised the limit from 1733 to 1774 KLD. Complied Attachment: Click to View</p>
16	<p>WATER QUALITY MONITORING AND PRESERVATION</p>	<p>Oil Water Separation System shall be provided for the existing and proposed facilities and it should meet the standards stipulated by SPCB/CPCB/MoEFCC.</p>	<p>PPs Submission</p>	<p>Yes, two oil water seperation systems are in place with ETP. The oil collected in separate tank is disposed of as per the consent and authorization from RSPCB. Complied Attachment:NA</p>

17	Corporate Environmental Responsibility	The project proponent shall provide for solar light system for all common areas, street lights, villages, parking around project area and maintain the same regularly. The project proponent shall provide LED lights in their offices and residential areas.	PPs Submission	A solar power plant of 3.7 MW is installed in the parking & FE within the plant and power generated is being used for lighting and production in the plant. LED lights are installed in shops and offices. Complied Attachment:NA
18	Statutory compliance	The PP shall obtain requisite permission for storage of propane from Chief Controller of Explosives.	PPs Submission	License No. S/HO/RJ/03/320 (S35121) for storage of Propane valid up to 30/09/2026 Complied Attachment: Click to View
